WELCOME

Welcome to Atlantis and Sigacak-Teos

Welcome also to administrative centre of "Asia Branch of Dionysus Artists" of about 3300 years ago.*

Welcome to Sigacak, the seaport of Seferihisar, the forerunner implementation in Turkey of the international Cittaslow movement that started towards the end of last century. Welcome to the sea where you can identify every single piece of sand at the bottom, to the olive trees that have been here very long, to the home of tortoises that some of which may be 150 years old.

One hundred thousand square meter (equivalent to 12 soccer fields together with their spectator stands) green land contains: 1600 metres of hiking trail, three large pools, four special beaches, surf club, diving course, and many more enjoyable aspects including the presence of meadow right in front of your room where you can lie freely or availability of privacy that can keep you away

for hours and additional activities such as listening to live music performed by continuously changing bands and a playground for kids where they capture Captain Hook's vessel together with Peter Pan. A life centre where your complaint about its cuisine is likely to be, "Am I putting on weight?" and with all-night open bathroom and spa. Besides all these, the remains of the ancient site of Teos and the Sigacak's fortress are within walking distance and the cosy small bays of Sigacak can be discovered with boat cruises, fishing at its pure but a little cool waters besides visiting nearby villages to taste local wines and olive oil are all extra privileges.

Because of the existing flora and the fauna within the premises and also as it is in the archaeological site region the present buildings cannot be taken down to be replaced by new ones. Besides, this necessitates a motor vehicle ban within the camp area. Anyway, after seeing this environment one wouldn't want to drive in

the camp anyway; therefore for people who don't favour walking the camp is not too convenient. The steady breeze of Sigacak Bay causes no humidity to be present, and as a result sleeping is really restful.

This is a holiday village that is equipped with the necessary infrastructure for doing yoga in the best way and for children to play in tree houses that will remain in their dreams for a long time. Some scenes of especially the happy-ending love affair of the movie "Olanlar Oldu" were shot at the old windmill within the camp area and ever since the showing of the film, the deserted windmill has turned into place for making vows. In short you can easily get lost if you don't carry a map of the camp with you and in all likelihood will regret the fact that you haven't made your vacation plans for a longer period.

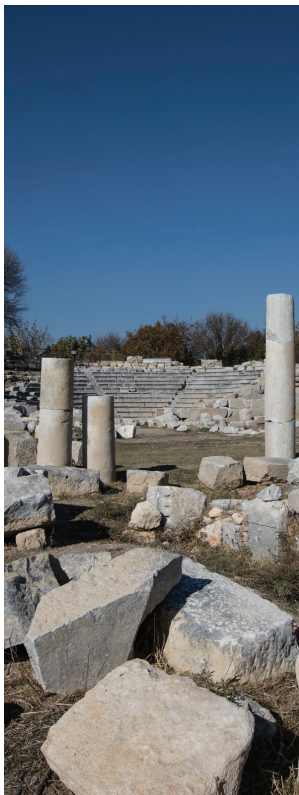

While embracing the responsibility of sustainable tourism in the unique habitat of this holiday village; We are excited to welcome you every time with a nature-friendly, fun holiday intertwined with history, culture and art.

We extend a great welcome by the experienced and hard working Atlantis personnel and their intern helping youngsters who strive to make your stay unforgettable.

Every day between 18:30 and 19:00, we meet at the lobby to answer your questions about our hotel while raising our glasses to you and sipping on cocktails prepared with the fruits harvested from our own orchards. This is also where our small tour of the hotel begins. We will be happy to see you there...

* These artists were sending performers to all of Middle East and all around the Mediterranean, in other words ancient world's performing arts activities were being managed from here.

ATLANTIS IS TEOS.

Atlantis is Seferihisar's waterfront peninsula reaching for the pure waters of the Aegean Sea. The archaeological Teos remains and Sığacık's fortress are within walking distance. Teos remains and the accompanying outdoor museum is accessible through a walk in the woods and Sığacık's fortress and bay, Ekmeksiz Bay, is over a hill that is next to Atlantis. The Sunday bazaar of Sığacık is Turkey's first female producers' bazaar. Most shoppers prefer to be there early in the morning to devour Seferihisar women's pies and stuffed leaves sharing with the bazaar crowd.

Beyler and Gödençe villages of Seferihisar are places to visit and drive to these villages must be followed by wine and olive oil tasting and by tea at the village coffee shops overlooking the blue of the sea in distance. Ulaş or Bademler are other villages 10-15 kilometres away and their local bazaars are abound with plants most likely you

haven't heard of. Coffee shops in these places are almost always under the shade of old plane trees that you wouldn't want to leave once you've seen them.

Within reach a little further away are Ephesus, Virgin Mary's recluse, Şirince, Pamukkale, Hierapolis, Aphrodisias through either driving personally or with organised tours. Visiting the various coves in Sığacık Bay with a boat is another option. The crystal clean water of the bay almost allows you to count the sands at the bottom. Fishing in these waters or just simply diving and swimming are further possibilities.

You could even visit Samos Island... Just call 3002-3003 for information on guest services or reservations.

FOOD

We are trying to discard less waste to garbage. The savings gathered through this measure will be transferred to the Foundation for Children with Leukaemia as a contribution of our guests and the related documents will be presented to the contributors. We expect you support. Another subject we hope for your support is for health purposes and it concerns keeping the food within the service areas (not taking out with you).

Welcome to Atlantis all inclusive holiday. Here is some detail for making your stays even more enjoyable:

Because Atlantis is spread over an area that is 100.000m² in size you are advised to hold on to the site map given to you at check in and study the various places where you can eat and spend time with the help of the following table.

Imported drinks, cocktails, fresh squeezed fruit juices and tobacco products are exempt from the all inclusive system.

All inclusive system at Atlantis ends at 11 pm except at Sunway Bistro ⁹.

Maya Bistro ⁶ and Maya Rocky Beach ³ that is within Atlantis area are also priced.

You will be given a QR code upon arrival which you can use for purchasing paid products or Maya services without having to carry cash.

Kebab Restaurant or Mexican Restaurant is free of charge for guests staying in our hotel for 5 nights or longer Kebab Restaurant or Mexican Restaurant is free of charge for guests staying in our hotel for 5 nights or longer. If you enjoy a la carte service of the

menus meticulously prepared by our chefs and indulge your loved ones, you can use this service multiple times with extra charge at the guest services desk.

For a more relaxed environment during dinner at Atlantis Restaurant, we invite guests with odd room numbers at 18:30 and guests with even room numbers at 20:00.

The operating hours of the restaurants and bars may vary based on seasonal conditions.

FOR GUESTS WITH CHILDREN

Atlantis is a special place with its vast area aiming to have everybody together and most of all the families with children. Natural solutions to expectations of families with babies and/or teenagers are present at Atlantis.

Babies, when their families check in, even before the family settles in its room, can enjoy the baby care room ⁽²²⁾ right at the reception area. They can be breastfed there and you can disinfect their bottles, use the tub and feel comfortable and secure while their siblings play with their age group in the playground safely.

In the following days during the use of the main restaurant you can have baby chairs and access to microwave.

The children sections of two pools ⁽¹⁸⁾ ⁽²⁰⁾ one of

which uses sea water are guaranteed for the safe swimming of babies.

The days generally start early for families with children. Yet, if your room is at ground floor, let them walk out when they get up to play freely on the grass right in front of your room and start your day a little later confident in your beds by hearing their voices.

Now you are ready for the breakfast with healthy and non-objectionable food followed by the hours of moving around and enjoyment. Slide pool ⁽¹⁹⁾, Captain Hook's vessel to be captured with Peter Pan, Gulliver, Asterix and the Smurfs are all for your children under the tree shades.

Youngsters who had pedagogical training will oversee children's activities

during 10 am – 5 pm soar them to release their energies and prepare their shows and handicrafts for your enjoyment.

If you plan to spend time with your children during your vacation you are advised to use the "special family activities". List and details of sports activities, plays and entertainments that you can have with children are available daily at our children's' club. ⁽²³⁾

In addition to an endless variety of sports activities; contests, pool games and DJ courses are also organized for youngsters. Those who wish to remain private are invited to fish at the rocky coast of the hotel, snorkel to discover the undersea, watch surfers and divers or take a try at these activities with trainers, or even isolate themselves with their headphones in a beautiful corner of the peninsula, soaking up the sun.

It is up to them to establish friendships with the members of the continuously changing music bands or to be part of various cultural activities.

Our rich and nutritious Kids' Buffet ⑦ Fresh Sandwiches ⑨ Street Food ⑬ Ice-cream and Popcorn ⑳ are the rescue stations for hungry guests all day.

WATER AND MORE

Sigacak-Teos more than anything else is sea and water.

Sigacak bay and the peninsula on which Atlantis is situated can be imagined to be within each other. Akkum Beach that is at the entrance of Atlantis is the best of Seferihisar's three beaches.

BEACHES

There are four beaches in Atlantis. The first ① is adjacent to Akkum, in front of surf course. Another one is Maya Beach ② at the rocks where Sigacak joins the Aegean Sea. The third one is the Cave Cove ⑤ and the last one is the Waterfall Beach ④ that contains a small sandy area besides the rocks of the beach.

POOLS

One of the three large pools in our hotel is a saltwater pool ②0. It is situated in the lower garden next to the playground.

Our relaxing pool is side by side with the restaurant ①8 hosting live music events at night. Both the relaxing pool and the saltwater pool have special sections for small children.

The water-slide pool ①9 is next to the Kids' Club, ideal for guests looking for fun and games. The water slides are open between 10:00-12:00 and 14:00 – 17:00 under the supervision of a lifeguard. You can swim at your own risk in the remaining hours of the day, and also in the other pools and the sea.

All pools are open between 8:00 and 19:00.

DIVING

Teos Divers ①3 (extension 3049), the diving school right next to Maya Beach, is operative year around. One can dive alone or accompanied by a trainer. To watch or take photos of the lively sea water of Sigacak and its rocks, sand and other beauties requires prior appointment by phone.

Pirates Water Sports (12) provides optimists, lasers and catamarans for those who wish to sail across Siğacik Bay (extension 3056)

Besides all these, you can discover the waters around the peninsula using a snorkel or fish at the rocky shores any day of the year. It has to be noted that the waters of Siğacik that is considered to be cool for some is 18 degrees Celsius during winter months.

ARTS, SPORTS AND ENTERTAINMENT

Atlantis summers are something else. In the arts and sports areas spread around its vast land, each day at least some activity is realised. The only amphitheatre (14) that is this side of İzmir is in Atlantis; after all, the descendants of Teos are in here. The 800 seat theatre hosts a different event almost every evening. These included unforgettable concerts by Cahit Berkay, Emrah Karaca and Moğollar in 2017, Leman Sam and Grup Gündoğarken in 2018, and İlhan Şeşen and Yeni Türkü in 2019.

Around the pool next to the restaurants is another live music area. Music is chosen for children every evening and for grownups every night.

Atlantis has hosted many live music shows and different kinds of entertainment

activities, theatre plays, events and parties.

Cave disco (5) is a beach during the day and a lounge bar at sunset, while it turns into an outdoors disco at nights until 2 am under the stars and music performed by well-known DJs to the tune of which you can dance.”

Slide pool (19) is ready for volunteers for light sports activities. During the day under the breeze, the wild voices coming from that direction make you wonder what is going on. The tennis court (15) volleyball field (17), zumba platform (24) or at Harry Potter Fort (16) are always busy with some sports or show activities keeping the guests occupied all day long.

You can visit the exhibition area throughout the season

to see the works of various artists, and experience local handicraft in the adjacent workshop. (34)

However we advise you to use the 1600 metres long trekking path early in the morning and pretend as if you are somebody from Sığacık. The walk can be followed by a healthy and rich breakfast and the rest of the day can be planned as you like.

SLOWDOWN FAST

You have two choices among the rich flora of Atlantis: Either while entering or a little later you leave "out" your life outside or spend the time without noticing any of the beauties.

We definitely advise the first. Certainly we don't promise you a couple of flawless and full days. How could we? Both we and Atlantis have many deficiencies and besides, flawlessness and completeness depends upon the individual. However, we say "slowdown fast"...

Look at the century-old olive trees and the tortoise that may be 150 years old and its family. Think about the reason of visiting Atlantis by the Mediterranean seals every December. Or wonder about why the deserted cats and dogs that have been earlier adopted with enthusiasm are coming to Atlantis with humble looks. You won't see much of it but there is an

involved activity going on for this purpose.

Anyway, slowdown, breathe deep and take in excessive oxygen and iodine. In one of the following days may be you'll make use of the noon to 3 pm free hours of bath and sauna at **Serene Spa and Wellness** (25) or prefer to do sports at the lower floor of the same place and complete a fine bathe among the green and blue accompanied by a cup of tea watching the beach of Akkum. You can even call extension 3034 to arrange a paid service of bath, skincare, relaxing, therapy or even one of the Far eastern massages. If you didn't have time to have your hair done before checking in or even planning to surprise your spouse, call extension 3036 to make an appointment at **Gold Scissors** hairdresser that is available from 9 am to 11 pm for both ladies and gentlemen. You may be curious about or already practicing yoga; anyway at the hill overlooking Sigacık Bay

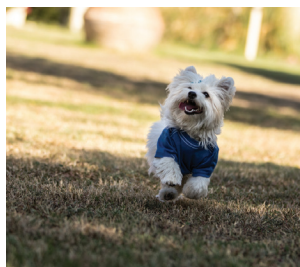

we have a yoga deck (28) it doesn't have to be yoga, when not busy you can use the place for any personal sports activity. Information for yoga is available at guest services or at the desks at the entrance lobby.

Spare some time for our vegetable garden where fragrant herbs and organic vegetables (29) are grown under the sun and in the fertile soil of the Aegean, and pick some for your breakfast.

The windmill (27) is the ideal location for an awareness of the value of life and everything you have, and a hopeful look into the future.

Don't forget, you have to start saying "I'll breathe deep and slowdown fast!"

NATURAL LIFE AREA ATLANTIS

Atlantis enables you to have your vacation without need to part from your pets. Since 2017 we hosted happily guests who brought their dogs, cats, birds in cage and even a duck. From the guests that have their stay receiving special service at rooms that are arranged for this purpose we only expect to attend the needs and comfort of other guests. In short:

The guests should not bring their pets to the pool areas, kindly help keep the yards clean with the use of plastic bags placed at the rooms, walk them on leash, don't leave their pets alone at the rooms to cause them cry, to have their pets with them when their rooms are being cleaned by the room service personnel or leave their telephone numbers at easily seen places so that when a problem arises they

can be reached easily, and not leave the special areas at the restaurant designated for them. (21)

We thought, if these requests were observed why shouldn't we be a "pet friendly hotel"? We were trying to respect the natural life at the wide Atlantis area. Tortoise family, different kinds of birds, other animals living at the rocky shores without ever disturbing guests are already at Atlantis. Therefore our guests coming here to rest should not be expected to leave their pets at back at "hostels" or at their friends.

In order to provide a better service, we started admitting pets subject to extra charge and prior booking. We started to give special paid service to guests that came without knowing this possibility. We received many praises and congratulations for this in 2017 that made us happy. Consequently, our guests who woke up in the mornings with the chirping of birds or barking of far away dogs that made them feel confident will be able to see and hear a few more domesticated beings.

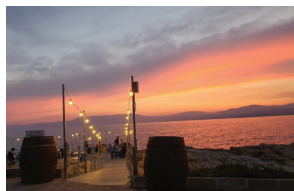

MAYA – TIP OF ATLANTIS PENINSULA

The night of December 31, 2016 was a first in Atlantis history. The New Year was being welcome at the restaurant of the boutique hotel that is named Maya that would be open all year long. In the following days the first hotel in Siğacık-Teos that has central heating started to host guests by the Atlantis rocks.

Maya that hosts its customers on "bed and breakfast" basis hopes to serve them local products procured directly from the producers and processed at the expert hands of chefs and cooks as the representative of "slow food" movement. This is unique at the region and the restaurant is situated over the rocks, almost inside the sea.

The fish from the bay are cooked in a special way and the local vegetables some of which are gathered inside Atlantis are used within the day.

You may want to taste these in this setup one day during your stay at Atlantis or celebrate a special day during your stay with friends or alone with your companion.

Maya Bistro will be happy to host you on Saturdays with live music on the deck or a quieter seaside atmosphere.

To achieve this special-to-you sort of service, it will suffice to make a reservation at Maya at the discounted rates given to Atlantis guests.

*It must be added that one special care of Atlantis guests is needed: At Maya beaches Maya Bistro serves the food; please do not bring Atlantis food to Maya beaches. For one very obvious reason: Maya guests do not get those foods.
